SOFTWARE DEVELOPER

Motivated and results-driven Web Developer Business School graduate seeking a challenging position within a large organisation as a Business Analyst or Project Manager. Offering a strong foundation in business strategy, data analysis, and project management, with a proven ability to drive efficiency, deliver successful outcomes and collaborate within cross-functional teams.

KEY COMPETENCIES

Frontend Development	Backend Development	API Development & Integration
Authentication & Security	Performance Optimization	Modular & Reusable Code
Testing & Debugging	Team Leadership & Collaboration	Problem-Solving & Critical Thinking

PROFESSIONAL EXPERIENCE

Livekeeping (An Indiamart Company)

Oct 2024 - Present

Frontend Developer

At Livekeeping, I am leading the redevelopment of an existing project, improving code quality and performance by 80% through optimized architecture and best coding practices. I manage and coordinate a team, oversee API integrations, and implement security enhancements to ensure a scalable and secure application. My focus on performance optimization has significantly improved responsiveness, while my leadership drives efficient collaboration and development workflow.

NxtBigByte Solutions

Nov 2022 - Sep 2024

Full Stack Developer

At NxtBigByte, I played a key role in developing a complex school management system, leading the frontend architecture and collaborating on backend workflows. Additionally, I led the redevelopment of a restaurant website in React and built an admin panel for restaurant management, handling both the frontend and backend in Node.js. I optimized performance, implemented scalable API integrations, and ensured robust security practices across projects. Managing a team of developers, I streamlined workflows and fostered efficient collaboration, which contributed to my promotion from Junior to Senior Developer within six months.

EDUCATION & CERTIFICATIONS
